The Year hanging out the Months in their proper apparel. Four months already out, and May is trying attire waits on the window.

Employing the highest skill in designing of Patterns, we cut Garments of three shapes in every size breast measure. These are called "regulars," "stouts," and "longs," terms so expressive as to dispense with further explanation. This variety of shapes enables us to fit any form; even slight deformities of figure are provided against by skilful alteration when necessary. Our Clothing is largely made between seasons by the identical journeymen tailors who work for custom shops. We buy the best fabrics and use the best trimmings. Why should not our Garments be practically equal to custom made? They are, as a trial will demonstrate. The experiment will be in the direction of economy, for our prices are much below the merchant tailors'.

Persons who have used other ready-made clothes without satisfaction are invited to come to us. We sell not clothing alone, but every other article of apparel worn by man or boy, and the stock now displayed includes all the fashionable fabrics in greater variety of pattern and style of cut than is shown elsewhere.

## EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operation of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage, which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up, and a weak and sickly condition may be made to disappear. It is a most valuable and economical food for the family, and may be used as a substitute for milk or water. Sold only in half-pint tins by grocers, labeled 'Epps' Cocoa'."

Prepared by JAMES EPPS & CO.,  
LONDON, ENGLAND.
